

title: fill-line

meter: fill-line

simple line in book markup

fill-line in book markup

2nd level fill-line in book markup

3rd level fill-line in book markup

3rd level fill-line in book markup (word-space = 0) [NOT 100% correct!]

M M

(implicitly 2nd level nested) trying word-space = 0 in oddFooterMarkup (line 11)

fill-line in tagline makes these two lines collide
